

GTL | BATTERY POWERED TELESCOPING GRAVITY TRUCKLOADER

Battery Powered 90w VDC Drive

Up to two weeks per charge

E-Stops Standard

Steel Channel Frame

Automatic LED Light System

**1.9" DIA | 16 GA AL
Hex Shaft Roller**

The battery powered GTL telescoping gravity truckloader is designed for loading docks and shipping areas that require simple, flexible operation. The gravity roller bed allows cartons to move smoothly with minimal mechanical complexity, while the telescoping design helps operators extend product flow directly into trailers. A 90W VDC battery powered drive eliminates the need for a fixed electrical connection, giving facilities greater freedom in positioning the unit where it is needed most.

Engineered for efficient dock performance, the GTL can operate up to two weeks on a single charge, reducing charging frequency and minimizing cord management at the dock. With the mobile, self-contained configuration and wide range of applications, the GTL provides a practical solution for streamlined trailer loading operations.

SPECIFICATIONS

LOAD CAPACITY	50 lbs
ROLLER SIZE	1.9 in
ROLLER TYPE	1.9" DIA 16 GA AL Hex Shaft Roller
ROLLER CENTERS	3 in
TRAVERSING MOTORS	90W VDC Drive
TRAVERSING SPEED	45 fpm
CONTRACTED LENGTH	15' Nom.
EXTENDED LENGTH	50' Nom.
IN-FEED HEIGHT	30" Nom.
DISCHARGE HEIGHT	11.5" Nom.
DRIVE WHEELS	10 in Heavy Duty
CASTERS	8 in Heavy Duty
GUIDE TRACK	Yes
POWER	Battery
CONSTRUCTION	Formed Channel

DETAILS

ACCESSORIES / OPTIONS

ABEC Sealed Precision Bearings

WARRANTY

Electrical: 12 Months

Mechanical: 12 Months

SERVICES AVAILABLE
