

TL2 | TWO-STAGE TRUCKLOADER

Heavy Duty Structural Design

Product Guides Standard

1.5 hp Drive Motor

Convenient Controls

Space Saving

Wide Range of Applications

The extendible telescoping truckloader from Roach Conveyors is engineered to withstand the rigors of loading docks and shipping areas where forklift and other collision hazards are common. Dedicating significant time and money to maintain your current truck loaders can lead to downtime and diminishing returns. The extendible telescoping conveyor offers the perfect solution.

Constructed from a 10-inch structural steel channel framework, this two-piece telescoping conveyor features very few moving parts, ensuring years of virtually maintenance-free operation. The framework and 1.9-inch galvanized rollers are set low within the frame to create integral product guides, keeping cartons securely on the conveyor. Additionally, the frame is built to withstand impacts from forklifts, trailer walls, and other shipping area hazards.

SPECIFICATIONS

LOAD CAPACITY	100 lbs/ft
MAX LIVE LOAD	3,000 lbs
ROLLER SIZE	1.9 in
ROLLER TYPE	Heavy duty 16 gauge zinc plated steel rollers
AXLE CENTERS	Standard: 3 in / Optional: 2 in
TRAVERSING MOTORS	1.5 hp gear motor with Bauer reducer
TRAVERSING SPEED	45 fpm
LEFT TO RIGHT STEERING	6° (3° left / 3° right)
COMMON IN-FEED WIDTH	32 / 35 / 37 in
COMMON DISCHARGE WIDTH	28 / 31 / 33 in
LENGTH	Up to 64 ft
IN-FEED HEIGHT	54 in
DISCHARGE HEIGHT	26 in
TIRES	18 in Solid Rubber
IN-FEED CASTERS	10 in Rigid Caster
GUIDE TRACK	Floor Mounted Guide Included
POWER	Standard: 480VAC / Optional: 230VAC
CONSTRUCTION	Structural Channel
